SUBJECT: CONVEYANCE OF THE UPDATED P5+1 PACKAGE FOR IRAN TO BRAZIL

REF: STATE 064530

This cable is sensitive but unclassified. Please protect accordingly. Not for internet distribution.

11. (SBU) On 2 July 2008, EST officer delivered ref updated copy of the P5+1 package for Iran to Minister Santiago Mourao, Head of the Division of Disarmament and Sensitive Technologies for Brazil's Foreign Ministry. Minister Mourao expressed appreciation for the delivery of the P5+1 package and said that he viewed updated incentives as important to peacefully resolving international concerns with Iran's uranium enrichment program.

12. (SBU) Mourao believes that Iran already found the previous P5+1 package to be good and was interested in learning what new incentives the updated P5+1 package contained. Mourao also queried what had changed in either Iran or the P5+1 to induce the P5+1 to believe that Iran would be amenable to an updated package as the condition of complete cessation of uranium enrichment by Iran remained the same. Mourao believes that the participation of the United States in the P5+1 was positive and may serve to assuage Iran's security concerns.

13. (SBU) Mourao agreed to read ref updated P5+1 package and to contact EST with any questions or comments. EST will follow up with Mourao and will advise.
